

Luxury Spoiler Sunroofs

SKYROOF® electric spoiler sunroofs vent like a pop-up, and slide open like many factory power sunroofs. A low profile metal frame, flush finish, curved leading edge, dark tinted glass and neatly trimmed interior make SKYROOF® spoiler sunroofs look built-in, not bolted on. Compact 17x31 size makes it the perfect fit for today's more rounded cars, trucks and sport-utility vehicles. SKYROOF® sunroofs provide luxury features at a moderate price.

SKYROOF® LSS features a sliding panel shade and full wrap interior for a factory finished look. Integral louvers in the shade allow you to block the sun while venting the sunroof.

SKYROOF® LSS interior full wrap, sliding shade

SKYROOF® LS interior trim bezel, rolo shade

SKYROOF® LS features a convenient flexible trim bezel and full width rolo shade. Ideal for std. cab mini-trucks and sport cars - it's the only small quick-fit spoiler with a built-in shade.

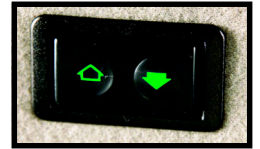

vent it

slide it open

close it

Vent it, slide it, close it... simply press a button! Full power operation, illuminated switch.

SKYROOF® Spoiler Sunroofs provide convenient operation, practical features, and quality construction for a great value. *Get yours today, and let the sun slide in to enjoy the great pleasures of open-air driving.*
