

DONMAR SKYROOF SHORT SLIDER®

SKYROOF Short Slider Sunroofs neatly trim any headliner, hard or soft. Above is a fully trimmed electric model. Below is a manual model with optional hard headliner trim bezel.

SKYROOF combines sleek styling with a large opening to give you maximum ventilation and view, with no loss of headroom.

An aerodynamically designed wind deflector improves airflow and reduces wind noise.

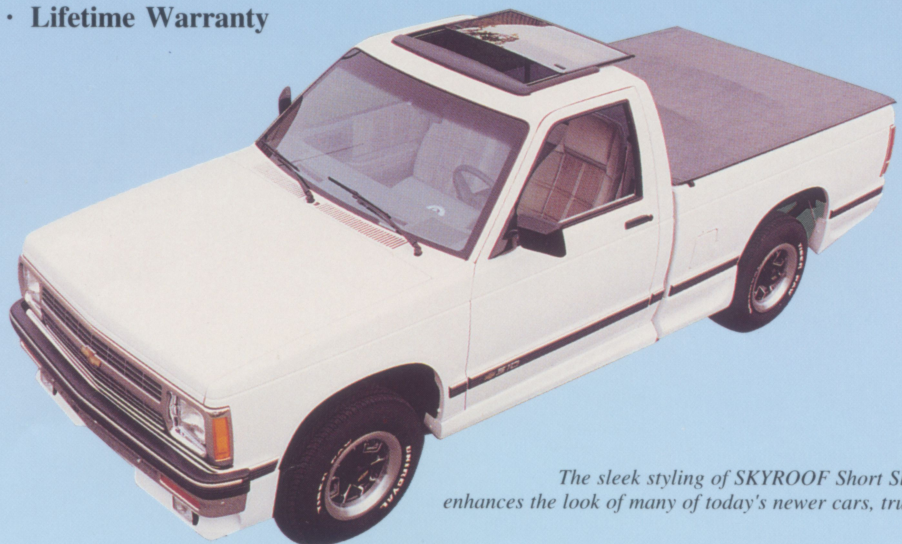

With the SKYROOF manual or electric short slider, you get the best features of a sliding sunroof at an affordable price. Open up a SKYROOF and *Let The Sun Slide In!*

The new SKYROOF® Short Slider is a stylish top mounted sliding sunroof designed to fit today's shorter rooflines. Available in manual or electric models, SKYROOF is easy to use. The reflective glass is dark tinted, and there is an optional sunshade for maximum solar protection.

Everything you want in a sunroof...

- Large opening - more than most glass tilt & slide (spoiler) sunroofs
- Integral wind deflector to reduce wind noise
- No loss of interior headroom
- **Lifetime Warranty**

The sleek styling of SKYROOF Short Slider Sunroofs enhances the look of many of today's newer cars, trucks and vans.

SKYROOF® Sliding Sunroofs are backed by a limited Lifetime Warranty. See written warranty statement for complete details.
