Enjoy Constant Temperature with Instant Heat at the Touch of a Button

Relax, sit back and warm up with NEW flexible Carbon Fiber Seat Heaters from Webasto. Unlike wired seat heaters, our ultra-thin, flexible carbon fiber seat heaters provide evenly distributed instant heat. Advanced electronic controls keeps the seat temperature constant within one degree, even when nobody is sitting down!

Features & Benefits

- ❑ Electronic control ensures constant temperature
- ❑ High/Low temperature setting
- ❑ Illuminated round switch with 2 color LED
- ❑ Wire harness extension included (for locating switch in dash)
- ❑ Ultra thin, flexible carbon fiber pads install easily under factory seat covers or with add-on leather kits
- ❑ Universal fit - easily trimmed for custom sizing
- ❑ Dual pads for both seat and back
- ❑ Can be installed as single pad (for OCS)
- ❑ 3 year / 36,000 mile warranty

Take the Chill Out of Your Daily Commute

Relax, sit back and warm up with Webasto Seat Heaters. Wire element heaters offer the best in value and ease of installation. Basic wired pad kits install easily under factory seat covers or aftermarket leather. Round switches mount in the base of the seat or center floor console. Ideal entry level product suitable for most applications.

Features & Benefits

- ❑ Installs easily under factory seat covers or with add-on leather kits
 - ❑ High/Low temperature setting (dual kit only)
 - ❑ Illuminated round switch
 - ❑ Universal fit - 8" x 10" pads
 - ❑ Dual pad kit for both seat and back
 - ❑ Single pad kit for lumbar only (for OCS)
 - ❑ 3 year / 36,000 mile warranty
